

Government

The UK Government can be a difficult sector to do business with, owing to the size and complexity of the sector at the level of both Local and Central Government. This means that those seeking to gain business traction in this sector can struggle to find their way into the marketplace, or contact the right person.

Luckily, Ingenium provides a highly segmented and searchable overview of the entire UK Government landscape. Below, you can see the numbers of organisations and contacts Ingenium includes in different categories.

We can also break down our data by geography, employee size and a number of other sector-specific categories. If you'd like to find out more, just get in touch.
